the most lumnive Medical Practice in the South, has at last consented to allow several of his most esteemed remedies to be propared and seld as proprietary medicines. This resultation has been engendered by the repeated solicitations of those who have experienced the benefit of his remarkable professional skill, and by the impossibility of giving especial attention is each of the written applications much to him for prescriptions by those whose penulary circumstances, or business habits, preclude the possibility of applying in person to him.

May rest assured that the manufacturers spare neither pains nor expense in the proparation of those remedies. They are made of the very best modicines known, in a highly concen-trated form, upon strictly scientific principles.

DR. SAMUEL GILBERT'S General Alterative

Acts directly upon the Glands and Mussus Membranes—stimulating them to additional activity in their natural functions of sliminating from the Girculating Fluids the usual Effects (and in disease, Ricetid) Matters, and expelling them through the Skin, Ridneys, Liver, and Blimentary Canal from the System. It is, therefore, adapted for the relief of Chronic Diseases affecting those organs, and of the mucous membranes lining them, such as Eruptions, Tetter, Ulcers, Scrofula, Jaundice Goitre, Chronic Inflamation of

Bladder and Uterus, etc. It is particularly useful in RUPPRESSED MENSTRUATION Hereditary Taints, Syphilis.

It will also kill ITCH and other local vermin which proy upon the skin. It softens and detaches the excrementitious matters deposited upon the skin heals the cracks, blisters and pimples, and renders the cutaneous surface smooth and plishle. It has been used by Dr. GILBERT, with most entire factory results, for many years. It is efferred for sale, in this tayle, from the first conviction that it must necessarily meet with the hearty approbation of these who make use of it.

Full directions for the method of using these remedies, a plain and recurate description of a number of the different varieties of Skin Diseases, and many valuable suggestions in regard to their cure, will be found printed on the circular accompanying each package. These suggestions are the fruit of most ample experience acquired by Dr. Namuel Gibbert during his extraordinary professional career in the treatment of this class of diseases in the class of Memphis, New Orleans and New York; and will, it is expected, enable must unprofessional persons to treat their own cases with much greater smoons has that which usually falls to the lot of ordinary physicians.
